Hi Diane,

Does the region plan to share the tech memo to OSRTI? If so, do you have a timeframe of when we would expect it?

Thanks,
Sun

Hi Sun

Yes, that is my understanding that the next step is another discussion between R2 and OSRTI. I looked at our calendars and the best date is 11/15 between 11:30 and 2:30.

We are still waiting agreement on the CA question for Woodbrook. I am still trying to set something up with NJDEP, but I don't think that will hamper our decision. I think we need to have HQ and R2 on the same page.

We have begun the FFS, including background sections and relooking at disposal options, ie truck vs rail.

We have also drafted a tech memo that responds to the risk assessment questions in the Peter Wright memo.

As far as a schedule, my current goal is an FFS by the end of the FY 22.

Thanks

Hi Diane,

Based on last week's meeting, I understand that the next step is for OSRTI and the region to meet to discuss the path forward, but wanted to make sure that is your understanding as well? And would you also be able to provide a tentative schedule and current status of the FFS and technical memo (pls see Christine's note below).

Thanks,
Sun

Hi Sun,  
Silvina's back in the office and is interested in learning the Region's updated schedule and the progress they've made so far. I'll can share this update with her, but can Diane please share her planned schedule for the FFS and the technical memo? Also, I believe the next steps are for HQ and the Region to meet to discuss the path forward, but want to make sure R2 staff received the same message. Can you please check-in with Diane?  
Thanks!  
Christine

Hi Christine,

Please see Diane's update below in the email chain re: where the region is at on Woodbrook.

They will schedule another call to discuss the path forward and use of compliance averaging, I can let you know when that is scheduled.

On the July 8 call we had, **Ex 5 Deliberative**

[REDACTED]

**Ex 5 Deliberative**

Hi Diane,

Thanks for the update on the status.

Yes, I would be the contact, and Matt Lambert & Mike Beuthe should also be included on the next call (I think it would be a continuation / follow-up of our July 8 call?).

Thanks,
Sun

Hi Sun,

The Region has begun a technical review of the 2013 ROD for the Woodbrook Road Dump Site as per Peter Wright's memo. To this extent, we are initiating a Focused Feasibility Study to re-

evaluate the alternatives. We are also planning on addressing Peter Wright's concerns about the risk assessment via a technical response memo. Peter Wright's memo instructed the Region to work in conjunction with OSRTI conduct this re-evaluation. We would like to discuss the path forward, in particular the question of compliance averaging, with OSRTI. Would you be the contact for OSRTI to have a call?

Thanks  
Diane

Hi Diane,

Would you be able to provide an update on where the region is on the reconsideration of the ROD per Peter Wright's memo, including any next steps that include OSRTI?

Thanks,  
Sun

Hi Sun,
Can you please reach out to R2 to determine where they are with their "reconsideration" of the Woodbrook Rd ROD and identify next steps, including any for OSRTI?
Thanks!
Christine
